

# SPIRAL SHAFT SEPARATOR

METHOR CARRIER

- Proven and patented SWS technology separates difficult materials without materials clogging or wrapping
- Spiral shafts are highly wear-resistant and are characterized by a long service life
- Large selection of different spiral shaft decks offer optimum adaptation to the required grain size range
- Adjustment of incline and rotation speed allows to respond to different material requirements
- Attachment is picked up with the adapter of the Methor and powered by the auxiliary hydraulics
- Integrated support legs allow rapid set down and change to another attachment within minutes without additional equipment
- No support is required in operation, so the machine can be moved during work
