Recycling Beyond Generations

EVERYTHING IN VIEW.

Doppstadt relies on innovative technologies for efficient and sustainable waste management. The proven telematics technology allows you to keep track of machines and processes in real time. Analysing data such as fuel consumption and maintenance intervals is made easier. Discover the benefits of Doppstadt telematics solutions for your company.

YOUR BENEFITS.

as a service partner

Manage your customers and their machines conveniently with one tool.

Plan your service assignments in advance from the office and never miss a service again.

Easily assess the condition of your machines from any location and reduce unnecessary journeys.

Solve problems faster by analysing current and historical error messages.

If you need additional help, you will receive worldwide support via telematics from our team of experts.

as a machine owner

Keep an eye on the location and important information of your Doppstadt fleet.

Document orders with precise operating times and fuel consumption.

Use the export function to share your data or process it with other tools.

Increase efficiency by reducing operation without material.

Receive convenient email notifications about upcoming maintenance and other events.

Integrate your machines into an existing telematics system via the AEMP interface.

EXTENSIVE*.

The online portal offers you numerous functions to improve your work with our machines.

- Machine overview
- Position, position history
- Motor status
- Operating hours
- Fuel consumption
- Workload
- Maintenance planning
- Warnings, error codes
- Reports
- GeoLeash
- Email notifications
- AEMP 2.0 interface

4 Years INCLUSIVE**

All Dopplstadt mobile machines are equipped with telematics **as standard**.

REMOTE DIAGNOSIS SAVES VALUABLE TIME.

Offering first-class service worldwide means: wherever you work, we are at your side. As all Dopplstadt mobile machines are equipped with telematics as standard, our service technicians can help you quickly in the event of faults or repairs - without always having to be on site. Save yourself unnecessary journeys and reduce downtime. Conveniently analyse and solve problems remotely.

ANYWHERE AND AT ANY TIME.

Would you like to access the most important information about your machines while you're on the move? Then get the **free Doppstadt Telematics app** for your smartphone.

Available in the Apple App Store and Google Play Store. Simply scan the according QR code with your camera.

IT GOES INTO EXTRA TIME.

Do you want to continue utilising the benefits of Doppstadt Telematics for your older machines? No problem! We offer you the right technology for retrofitting and extending.

Modem CANlink mobile 3677*

Part number 20010015

Adapter (to older CANlink mobile 5xxx system)

Part number 20018407

+ 1 Year Telematics*

Part number 99999000027

* When ordering, the machine type and serial number (e.g. AK565 #0012) for the corresponding machine must be specified.
